

XM radio weather and traffic features are the most useful local news updates available to me. I am a dispatcher for a business and an avid motorcycle rider in my spare time. This service allows me to run my department more effectively, and ride my motorcycle when it is safe. No other form of news in my area comes close to providing the service given by XM radio. I have chosen to pay for this service because it IS WORTH IT TO ME, and I feel I should be allowed to pay for such a service if I so choose. I feel I should be allowed to continue to support a company which is providing a unique service to me which no other business is willing to provide for the same price and the same excellent level of quality. I hope this feedback does not fall upon deaf ears.
